## LERBEKMO DESIGN SERVICES

### Advanced Graphic Design (Print):

This involves the creative planning and production of new projects. Good examples would include company rebranding, logo design, media kit branding, annual reports and specific campaigns.

### Web Design & Development (Online):

This involves the creative planning, production and coding of any online materials such as landing pages, websites, eNewsletters, eMail designs, web banners, video design and development, animation, web statistical analysis, site reporting, SEO and Google analytics. Specific monthly costs for things such as hosting, domain purchasing and registration, email management and content support will be worked into a project quote.

### Basic Desktop Publishing (Print):

This involves the manipulation and re-purposing of projects that already have the creative complete. An example would be the creation of a poster using an existing brochure, or the file preparation of a news ad using an existing flyer layout. We ask that when possible, RAW files of existing projects are provided. ie. photos, icons, fonts, layout files.

*\*Note: Hour blocks are billed 50% in advance and 50% upon completion. Projects are tracked by the minute and a detailed log is provided.*
